

# BRAYDEN CPR TRAINING MANIKINS

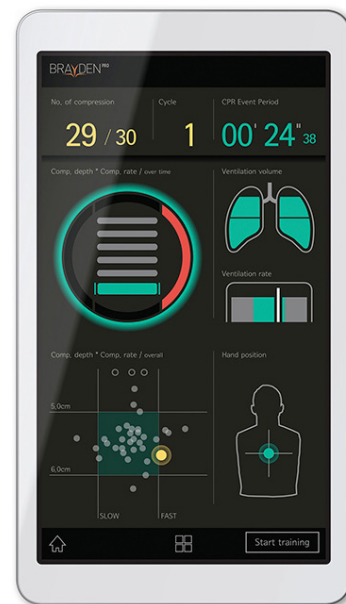

The **Brayden CPR Training Manikin** lets your students see the real point of CPR – getting blood flowing to the brain and other organs. In addition to the features of the Brayden CPR Manikin, the **Brayden Pro CPR Training Manikin** also provides healthcare professionals with quantitative, data-driven feedback. The Brayden Pro sends live data to the Brayden Online App via Bluetooth to provide real-time feedback of CPR performance on up to 6 Brayden Pro Manikins that can be reviewed, analyzed, and easily exported.

## FEATURES

- Realistic anatomy including head tilt, chin lift, nose pinch, airways and chest rise/fall
- 3 sets of LED lights give instant feedback:
  - Chest compression indicating lights
  - Blood circulation indicating lights
  - CPR quality indicating lights
- Indicators can be configured to the AHA 2020 CPR Guidelines and parameters can be adjusted in the Brayden CPR Pro App
- Brayden Online App\*
  - Intuitive app and feedback screens provide real-time CPR feedback, including ventilation performance, hands-off time, and hand position
  - Bluetooth<sup>®</sup> link connects up to 6 manikins to app on an Android\* tablet, allowing data to be easily exported
  - Provides a timeline of assessed performance measured through 8 key CPR metrics for quantitative analysis and debriefing
  - Can be set for different responder skill levels, 1 or 2 responder scenarios, ventilation only, or compression only

\*The Brayden Online app will work on any current Android version as long as it is Bluetooth-enabled.
